### LONG LIST OF FOODSTUFFS IS TAX-BURDENED

#### Many Items Free Up-to-date Now Tagged With Expense

OTTAWA, March 22.—The Rhodes budget added a long list of foodstuffs to those which were made taxable at six per cent under the sales tax. The following were free before today: bacon, ham, bacon, corn meal, rolled wheat, when in packages exceeding five pounds in weight; flour, when in packages; pearl barley, split pea, barley meal, pot barley, milled barley, malted barley, rice, macaroni and vermicelli, sago and tapioca.

The taxes were taxable at three per cent until today, now six per cent: moist milled meat, yeast, casein, dried eggs, dried fruit, similar products produced of vegetables, meat and fish or both; fruit pulp, jellies, jams, marmalades, preserves, fruit marmalade, canned fruit.

Rate on First \$1,000 Above  
Exemption Given  
Increase

OTTAWA, March 22.—The budget brought down by Hon. E. N. Rhodes yesterday contained many income tax changes in the income tax section. It reduced the exemption from \$1,000 to \$900, and increased the rate of taxation of married persons. Each dependent exemption has been reduced by \$100.

The income tax rate is first \$1,000 above the exemption is three per cent this year. From \$1,000 to \$1,500 the rate is 4.5 per cent, and from \$1,500 to \$2,000 five per cent. Thus that rate jumps one per cent each \$500 until the tax reaches \$1,000. The rate increases to 9 per cent between \$2,000 and \$3,000, 12 per cent between \$3,000 and \$4,000, and 15 per cent each \$500 thereafter until an income of \$10,000 is reached. The rate on the last \$500 is 18 per cent. This holds until the income passes \$10,000 plus \$500.

The increase amounts at one per cent advance with each \$500 increase, so that the rate increases 44 per cent. The increase after that is one per cent each additional \$500. The rate in excess of \$10,000 is 56 per cent.

BONUS PAYMENT  
IS SEEN BY POOL.

REGINA, March 22.—Saskatchewan pool officials in their annual report have recommended to the government that the guarantees given by the federal government will permit the pool to make an interim payment of five cents a bushel on the current year's crop of wheat, barley and oats, bringing the total payment for the crop year to date up to 40 cents a bushel.

## SUGAR REFINERS SEE HEAVY LOAD PLACED ON CONSUMER

**TWO PER CENT WILL PRODUCE \$18,000,000**

### Large Users Accept On Grounds "Government Needs Money"

TORONTO, March 22.—Twenty-four Canadian industrialists from across the western provinces tonight met tariff changes and tax proposals announced by the federal government. Confectioners and other large users of sugar declared the new two-cent proposal would benefit only on them, but the general attitude of others was to accept the changes in the spirit that the government sought the money.

Sugar refiners at Montreal believed that the extra tax would place a heavy burden on the industry and on the consumer.

One of the outstanding leaders in the industry pointed out that an additional one cent per pound was consumed in Canada last year a tax of two cents a pound would result in a revenue of \$18,000,000, this sum representing over one-third of the deficit.

**COSMETIC TAX**

The 10 per cent special excise tax on cosmetic and toilet preparations will not transfer to a general sales tax, it is official of a prominent cosmetic company, the thought, he would operate, he thought, to the best advantage.

Comment by the textile industry was generally favorable. A number of manufacturers said the half-tax of textile manufacturers said that tariff changes, affecting the industry, are "not bad."

The bakers made no change in the duty on automobiles and parts according to a spokesman, an automobile expert for a Windows automobile concern, and recommended adoption of the bill.

"The budget merely clarifies some points," he explained.

"Gaskets, steel and asbestos are now taxed, while others are now made metal and asbestos. Fuel pumps and parts added interest of the tax, but the bill does not affect the regular equipment of cars," he said.

**MONTREAL CHEERED**

Montreal experts in bacon and hams, geese, fresh milk, canned fish, tobacco, cheese, milk products, and meat and honey were well pleased with the budget announcement that the government would establish a stabilization fund in the amount of the present budget so that export of farm and fishery products might be increased.

Exporters agreed they would be freed from one of the most objectionable features of the budget, import trade with the United Kingdom.

Lowering of the arbitrary cut-off valuation of the pound for dumping duty purposes from \$4.40 to \$4.20 was welcomed by all goods pronounced very good and "an important reduction" by C. D. Matheson, president of the general manager of the Robert Burns Co.

**VALUATION CUT**

Increases in corporations' income taxes brought varied reaction among Toronto industrialists and consumers. One brewer expressed the opinion the tax placed a heavy burden on industry, another said sales taxes would obviate levying an income tax, and others said the bill would earn no revenue which could afford to be spent.

**SEKS ASSENT**

Montreal said that he sought in his resolution, and that the basis of the constitution was altered, the consent of the people of Alberta to the proposed changes in the constitution, rather than through the executive council.

He had not yet been called in Canada, a plan for amending the constitution.

One brewer expressed the opinion the tax placed a heavy burden on industry, another said sales taxes would obviate levying an income tax, and others said the bill would earn no revenue which could afford to be spent.

**THE TAX IS LOST**

If the tax is lost in effect, the distributors and retailers might just as well stop selling beer, the brewers might just as well resign themselves to having no more home brewed beer, Mr. Ralston's de-

cided.

**Hadley Lauds Action By Dominion Govt.**

Created by the Dominion Government a National Fund, announcement of which was made in Ottawa on Tuesday by Hon. E. N. Rhodes, minister of finance, is the best news we have had for many years," declared Hon. George Holroyd, minister of agriculture, who has been informed of the Dominion action.

"This board, I said, would be a great service to the country in the future. It would not apply to stock now out of production. Hand in hand with the provinces, we would produce to take advantage of benefits of the Ottawa Fund."

An advance of about 11 per cent over previous rates will be imposed by two and three quarters cents a pound.

**School Lad Gets 18-Year Sentence For Manslaughter**

TRENTON, Ga., March 22.—Frank Jeffrey, 14-year-old school boy, was found guilty by a superior court here of killing his father, a school teacher, in the fatal stabbing of Prof. W. C. Matheson, the principal. He was sentenced to 18 years in the penitentiary.

He was sentenced Monday after it was learned he had been sought to break the youth.

Back from a year on remote and desolate Coco Island, still without the fabulous buried gold of the ancient discoverers of the Pacific supposedly buried there, returned to Los Angeles recently. ## CONSTITUTION AMENDMENTS ARE DEBATED

### B. N. A. Act Basis or Resolution Moved in Legislature

Approval of the legislature by resolution, should be given before any amendments affecting Alberta are passed to the British North America Act.

Debate on the motion was adjourned later by Col. Jameson, who said the bill would be introduced in the House of Commons as soon as the power might be brought in to be sent for Ottawa.

The communication, with the endorsement of the cabinet, was referred to the finance committee for discussion.

On April 1, 1933, the budget was moved an amendment.

That the government of Canada as soon as possible, shall call a conference with the provinces for the purpose of seeking the necessary changes in the British North America Act of 1867 to 1900, will enable Canada to amend its constitution to suit such terms and provisions as may be agreed upon.

**ZANGARA Buried By Prison Guards**

RAYMOND, Fla., March 22.—George Zangara, the assassin, who was electrocuted for the murder of Mayor Anton Cermak of Chicago, was buried yesterday in a simple casket in the small cemetery at the state prison farm here.

A 10-ton truck carried the body to the burial ground, where the prison gate was lowered into the grave by six prison guards.

**NO AGREEMENT**

So long as the principle remains that the provinces must agree on changes, there would not even be a chance of reaching for changing the agreements reached for changing the constitution.

Since given the right to change the constitution, the provinces have had to agree on the changes.

It is a question whether the procedure was contemplated.

The whole resolution was at present urgent as there was no indication that the provinces would be in agreement.

There was nothing to indicate that the provinces would be in agreement.

Hugh C. Fairing, Conservative member of the Senate, said if the provinces set up a Dominion in the west, Mr. Matheson replied it was not a question of the provinces setting up a Dominion in the west.

A. Giroux, Liberal, pointed out that there was little indication that the provinces would be in agreement.

The provinces had to agree on changes between the Dominion and provinces on this subject.

Mr. Matheson said the provinces had to agree on changes between the Dominion and provinces on this subject.

He did not say that the constitutional agreement was clearly how agreement was to be reached.

## MEN AFRAID TO BATTLE WOMEN

Men are much more afraid of women than women are afraid of men. They are far more afraid of their wives than there are wives who are afraid of their husbands. Men are far more frightened by women than there are women who are enslaved to their husbands.

Probably both husbands and wives will deny such allegations. Possibly no man will confess the secret fear of death which he has to which he is united in the holy bonds of wedlock has him terrified, nor will any wife admit that she is afraid of her husband because she doesn't know that even his soul is his own.

Nevertheless it is true that when the sexes come in conflict with each other it is men who are the scoundrels. It is men who are up the white and mostly innocent. Not one man in ten thousand has the courage to fight his wife in defense of personal liberty or his principles. The balance is all saved by his wife up without even striking a blow.

Everywhere we see the women rest heads of the house. Everywhere we see women imposing their tastes, their habits, their preferences on their husbands. Everywhere we see women dictated by silly little gods of women. Everywhere we see men who rule thousands of other men, but they are children. Everywhere we see high-heeled satin slippers trampling over the pretensions of fatuous husbands who hadn't the nerve to stand up to the females in their houses.

### Minute Make-Ups

By V. V.

Of course men raise a smoke screen of gallantry behind which they hide their cowardice and prudery. They pretend that they let their wives run roughshod over them because they are so tender and sentimental. But they can't bear to thwart them in any way, but this is merely subterfuge. They are really afraid of hurting Maria's feelings. It is the thought of what Maria will do if she makes her knees smile together and their bones turn to water. And it causes them to yell and let her tell them where they get off.

Consider: Virtually all men love their mothers and if their mothers are still alive, they are still loved financially, yet how many men do you know who would dare invite their wives to dinner? Who would give permission or who would have the hardihood to ask for a loan? Who would want the money to spend herself? I get plenty of letters from men who write me asking me to visit their mothers on the sly and secretly, without letting their wives know it, and then live in fear of being discovered.

Controlling a wife, especially after a permanent, is largely a matter of care in setting. The nap cap which she wears all the time would be better if she would set it in the wave, and for setting sidecurls in place she shampoos you will need a narrow comb to hold them in place while they dry.

**Tomorrow—Big Ears.**

**Who Are You?**

This name may have had several origins, if the best authorities are correct, in that it may have been derived from the Irish "Bank," which signifies upright, erect. Or, the Gaelic "Roin-Cean," which denotes a promontory, or it might have originated from the Dutch "Banken," which indicates a bank or a trick. There is also a rather vague tradition which has it that one son of a knight called himself "Bankin," burgomaster of Ghent, married the daughter of the head of the Keiths and thus became the progenitor of the Bankin family.

The coat of arms here shown is attributed to Henry Bankin, born in Stirling, Scotland, in 1773. He settled in New York City in 1792.

### A GENIUS

D. R. V. Piero, while his picture appears here, was a profound student of the art of medicine and of Nature's remedies—roots and herbs. Dr. Piero's Medical Dispensary is now in the drug stores of Canada. If you wish to have pure blood, and clear skin, free from pimples, acne, and eruptions, try this "Discovery." It enriches the blood, aids digestion, acts as a tonic, corrects disorders.

If you want free medical advice, write to Dr. Piero's Clinic in Sudbury, N.B.
